

NURTURING FIBRES

Floral Fusion Shawl

Colour used: Eco-Fusion in Anvil, Saffron, Old Gold, Pecan, Bordeaux, Paris
Designed by [Be Inspired](#) for Nurturing Fibres

NURTURING FIBRES

PATTERN DIFFICULTY

Advanced beginners - intermediate

MEASUREMENTS

Pattern Sizes:

One size only

Completed measurements:

Approx 112 x 62 cm

MATERIALS

Nurturing Fibres Eco-Fusion

(125m/50g):

2x Anvil

1x Saffron

1x Old Gold

1x Pecan

1x Bordeaux

Alternative colourway:

2x Vanilla

1x Pickled Ginger

1x Orchid

1x Bessie

1x Sweet Pea

1x Seashell

4.00mm hook

Tapestry needle

Scissors

ABBREVIATIONS

tc - treble

dtc - double treble

2tctog - two trebles

ch - chain

slst - slip stitch

IMPORTANT! PATTERN NOTES

Pattern is written in UK terminology

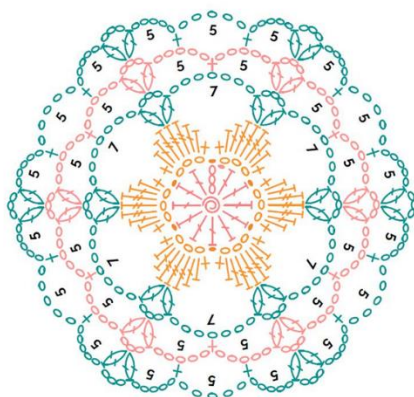

INSTRUCTIONS

FLOWERS

Round 1: Magic circle, ch 3 (= first tc) 11tc (= total 12tc in circle). Join with a slst into top of the starting 3ch. Draw magic circle closed.

Round 2: *Ch3, skip next stitch, slst into stitch* repeat * to * to second to last stitch, skip next stitch, ch3. Join with a slst to first chain (at base of the first ch3).

Round 3: With new colour working into the 3ch-spaces, *dc, htc, tc, 3dtc, tc, htc, dc*; Repeat * to * into each 3ch-space to create 6 petals. Join with a slst to first dc.

LATTICE SURROUNDS

Note: to make first 2tctog of each round work ch2, 1tc.

Round 1: Working into top of the middle dtc of any petal - *2tctog, ch3, 2tctog, ch7*. Repeat *to* into each petal & slst join to top of first st of round. Then slst across into the next 3ch-loop.

Round 2: into each 3ch loop between tcs at top of petal: *2tctog, ch3, 2tctog, ch5, dc in 7 chain loop, ch5*. Repeat *to* to end. Slst join to top of first st of round then slst across into the next 3ch-loop.

Round 3: (*Note: this is the joining round, so 1st hexagon will be completed after this round, but subsequent hexagons will be joined using this round.*)

For first hexagon: *2tctog, ch3, 2tctog, ch5, dc into 5ch-loop, ch5, dc into 5ch-loop, ch5*. Repeat *to* around, slst closed & end off.

(*Note: 1st completed hexagon is referred to as H1 & 2nd hexagon being joined to H1 is referred to as H2.*)

NURTURING FIBRES

For second hexagon:

Complete round 1 & 2. On round 3 you will work 5 sides then join last side to the first completed hexagon.

Round 3: * [2tctog, ch3, 2tctog] into the corner 3ch-loop between the 2tctog's, ch5, dc into next 5ch-loop, ch5, dc into next 5ch-loop, ch5*.

Repeat *-* 4 more times around the next 4 sides of the hexagon. Then **2tctog into the 3ch-loop of the 5th corner of the hexagon).

Then join to H1 by: ch1, slst into 3ch-loop between two 2tctog's of **H1**, ch1, 2tctog back into **H2**'s 3ch loop (=corner), [ch3, slst into **H1**'s next 5ch loop, ch3, dc into **H2**'s next 5ch loop, Ch3, slst into **H1**'s next 5ch loop, ch3, dc into **H2**'s next 5ch loop, ch5 ** and slst to starting 2tctog to close round.

For joining subsequent hexagons:

Corners: instead of the ch3 in between the sets of 2tctog, **ch1** then **slip stitch into the hexagon alongside**, then **ch1**. If joining one hexagon to 2 pre-joined hexagons, then slip stitch into **the join between** the 2 pre-joined hexagons per the diagram.

Sides: When joining two hexagons on the side: **Ch3, slip stitch** into completed hexagon you are joining to, **ch3** and then **dc** back into the hexagon you are completing ie. As you slip stitch join the hexagons together you are completing the third round on the current hexagon.

On the sides where you are not joining (free sides) you **ch5** instead of (ch3, slip stitch, ch3) between the dc stitches.

Continue joining hexagons on two, three or four sides as required until shawl is complete.

FINISH UP

Weave in all remaining loose ends and block. (Pin in place, spray with water and leave to dry.)

ABOUT THE YARNS

Eco-Fusion is a uniquely spun yarn with 125 meters to a ball. It is 50% bamboo and 50% cotton & lovingly hand dyed in South Africa.

Stockists of our yarn are listed on our webpage www.nurturingfibres.com
